

## Question: Why was the \$2,232,224 coverage added? (see Table-1)

Table-1

MISCELLANEOUS PROPERTY/ACCT REC	\$	2,232,224
---------------------------------	----	-----------

Answer: This was done under the request of the City's current carrier. Please take note of the items covered under this line item from communication below. Also, please price this as an optional item. We have not entered any claims for police radios, computers, or other smaller purchases, so this coverage may be deleted by the City.

Hi Julian,

Typically this is any equipment that is not included in the "Equipment Schedule". Items like gurney's for ambulances, or portable equipment used in rescue vehicles or ambulances, other types of portable equipment used throughout the City that hasn't been listed on the Equipment Schedule in the application.

Michelle,

Then, what is the added \$2 M covering in general terms?
