APPLICATION AND SPECIFICATIONS FOR SITE REVIEW

Date: _____

D.R.C. Date: _____

Name of Project: _____

Address of Project: _____

Legal Description: _____

Lot

(8)

Block

Subdivision

Submit ~~Six (6)~~ **Six (6)** Copies of Site Plan (Drawn to Scale) With All Support Information:

(Include: Existing proposed structure(s); All paving or other impervious cover; Landscaping; All setbacks; Lot Lines; Drainage Plan; Utilities & Fire Hydrant Locations)

Cost of Construction: _____ Total Square Feet of Building: _____

Impervious Cover (Building & Pavement): _____ square feet

No. of Parking Spaces: _____ No. of Handicap Parking Spaces: _____

Total Acres or Part Thereof: _____

Setbacks from Property Line: _____ Front _____ Side _____ Rear

No. of Turnouts on State or County Roads: _____

Company Submitting Site Plans: _____

Address: _____ Tel. No.: _____

Architect: _____

Address: _____ Tel. No.: _____

Engineer: _____

Address: _____ Tel. No.: _____

FOR OFFICE USE ONLY:

- (4) ~~Six (6)~~ **Six (6)** Copies of Site Plan Submitted: () Yes () No
- All Existing Proposed Structures Shown: () Yes () No
- All Paving or Other Impervious Cover and Landscaping Shown: () Yes () No
- Setbacks and Lot Lines Shown: () Yes () No
- Utilities, Storm Sewers, Fire Hydrants Shown: () Yes () No
- Drainage Plan: () Yes () No

Cost of Application **\$ 500.00** Date Paid: _____

Professional Cost for City (Engineer, etc. if need be): _____ Receipt #: _____

Applicant's Signature: _____

- (3) The City Council shall be permitted to impose any additional landscaping requirements that it determines are necessary, either within the PUD or along its perimeter, to prevent or minimize adverse impacts between potentially incompatible land uses.

7.05.00 Site Development Plan

7.05.01 Intent and Purpose

The site development plan procedure shall be required for all uses designated by the letter "D" in the Table of Land Uses in Article 2.04 to ensure that site-specific development projects meet the requirements of this Code prior to the issuance of a building permit. It is the intent of this Section, that the site development plan process be a part of the building permit application process, in that the site development plan is the instrument by which improvements to the site will be constructed and inspected, and by which final inspection and certificate of occupancy shall be issued. Site development plan approval shall be required prior to the issuance of a building permit for the following:

- (A) Division of an existing development site (such a division shall result in a new or modified site development plan for previously existing development, in addition to a separate plan for new development).
- (B) An expansion or reconfiguration of any of those types of development that are subject to site development plan requirements.

7.05.02 Site Development Plan Review

Those developments subject to site development plan review shall submit six (6) copies of the site development plan, with a completed application form, all necessary attachments and the requisite application fee to the Development Director to initiate processing of the plan. Additional plans shall be provided for review by other state, regional and county agencies upon staff request.

- (A) *Site Development Plan Preparation Requirements.* Where the proposed development site is five (5) acres in size or larger, the site development plan shall be prepared by an architect or engineering professional. At the Development Director's discretion, the same requirement may be applied to sites of less than five acres where the plan proposes high-intensity uses or activities that may have a substantial impact on surrounding properties.

Sketch plans and drawings submitted with variance, special exception or other zoning-related applications shall not be accepted for review as a site

development plan unless prepared in accordance with the guidelines of this section. In all cases, engineering plans addressing drainage, road construction and other technical aspects of development design shall be sealed by a civil engineer registered in the State of Florida.

(B) *Completeness of Plans.* Completeness of site development plans shall be determined within five days by the Development Director, and if complete shall be scheduled for a Pre-Application Conference according to the requirements of Section 7.01.00.

(C) *Staff Review.* The Development Director, the Planning and Zoning Board's Technical Review Committee, and other appropriate City staff members shall review the site development plan with specific regard to the codes and ordinances of the City of Avon Park.

The staff review shall identify matters of development policy concern to which the developer shall address particular attention. Specific comments to be addressed based on staff's review of the plan shall be provided in writing. The applicant shall be permitted to respond to staff comments at this stage of review.

(D) *Revised Plans.* Upon agreement by the applicant to incorporate the staff review comments into the plan, the applicant shall submit to the Development Director revised site development plans in which all concerns of the staff have been addressed.

When the Development Director determines that all staff comments have been adequately addressed, and that the requirements of all applicable City, state and federal regulations have been met, he shall place the plan on the agenda for the next regular meeting of the Planning and Zoning Board.

7.05.03 Content of the Application

Site development plans for sites in excess of five (5) acres and those determined by the Development Director to require the detail, shall be drawn to a minimum scale of one inch equals 100 feet on an overall sheet size not to exceed 22 by 36 inches. When more than one sheet is required, an index sheet of the same size shall be included showing the entire parcel with individual sheet numbers referenced thereon. The following information is required on or in an acceptable form so as to accompany the site development plans respectively:

(A) Site development plan name.

- (B) The property owner's name, address and telephone number; and the designated project applicant or representative if other than property owner. In addition, it shall reserve a blank space, three inches wide and five inches high for the use of the approving authority.
- (C) The engineer's name, address, telephone number and registration number.
- (D) North arrow, scale and date prepared.
- (E) A certified boundary survey of the tract prepared by a surveyor registered with the State of Florida showing the location and type of boundary evidence related to the State Plane Coordinate System, if available, and the accurate legal description of the property with a computation of the total acreage of the tract to the nearest tenth of an acre. Survey must have been done within one year prior to filing.
- (F) Zoning district assigned to the property that is the subject of the site plan and to the properties contiguous thereto.
- (G) Identification of watercourses, wetlands, and significant stands of mature trees and understory vegetation that may provide wildlife habitats or other environmentally unique areas.
- (H) Number of units proposed, if any, and resulting net density.
- (I) Floor area of non-residential uses.
- (J) Open space expressed in square feet and as a percentage of the overall site.
- (K) Number of parking lots and spaces required and proposed.
- (L) Location of all public and private streets, driveways and utility easements, within and adjacent to the site.
- (M) The footprint of all proposed buildings and structures on the site, including setbacks.
- (N) Required landscape and buffer yards.
- (O) Sign locations.
- (P) Phase lines, if the development is constructed in phases.

- (Q) Provisions for both on- and off-site stormwater drainage and detention related to the proposed development.
- (R) Existing topography with a maximum contour interval of one foot.
- (S) Proposed finished grading by contours supplemented where necessary by spot elevations and in particular at those locations along lot lines.
- (T) The delineation of all wetlands and flood-prone areas as delineated by the National Wetlands Inventory and the Flood Insurance Rate Maps published by the Federal Emergency Management Agency (FEMA).
- (U) Delineation of all environmentally sensitive areas as determined by any appropriate agency.
- (V) All existing and proposed utilities, including but not limited to:
 - (1) Water and sanitary sewer pipe sizes, rim and invert elevations, direction of flow and top and bottom elevations and fire hydrant locations and flows.
 - (2) Telephone, electric, gas and other utilities.
- (W) Location of major solid waste receptacles.

7.05.04 Development Site to be Unified

When requesting site development plan approval, the applicant shall furnish proof that the development site is unified by title, and not spatially divided by ownership; however, multiple ownership is permissible so long as each owner or investor holds a percentage or proportionate interest in the site as a whole. The development site shall be designed to provide all required facilities, including parking and stormwater retention; no such facilities shall be located off-site. The entire site shall have the zoning designation required to accommodate the principal use.

No development site, once granted site development plan approval, shall be divided except through the site development plan modification process established in Section 7.05.08.

7.05.05 Planning and Zoning Board Review and Action

The Planning and Zoning Board shall review and approve or disapprove any site development plan. The Planning and Zoning Board shall review and evaluate the site development plan with specific regard to the Comprehensive Plan, applicable City

codes, and the advisory recommendations of City staff. The Planning and Zoning Board shall approve, approve with conditions, or deny the site plan.

In the alternative, the Planning and Zoning Board may, for the purpose of allowing the applicant an opportunity to address unresolved issues, continue consideration of the site development plan. In the event a site development plan is denied, the reason(s) for the denial shall be noted.

- (A) Where the proposed development involves only the expansion of existing structures, the Planning and Zoning Board may reduce or waive certain criteria, data, or other submission requirements as appropriate provided that the following conditions are met:
- (1) No existing structure will be expanded by more than 30 percent of its total floor area and/or seating.
 - (2) No change in the existing use of the site is proposed.
 - (3) No existing nonconforming use would be expanded, and all other aspects of the site are in conformity with the requirements of this Code.
 - (4) The development site will not be reduced in size.
- (B) Under no circumstances shall any site development plan be approved that is inconsistent with any term contained in this development code unless a variance or waiver has been authorized in accordance with the provisions of Section 7.10.00 of this Code.

7.05.06 Approval of Site Development Plans

On approval of a site development plan, a minimum of eight (8) copies, and any additional copies as may be required by the City, of the approved site development plan shall be submitted to the Development Director prior to processing of a building permit. The Development Director shall forward copies of the plan to appropriate City staff. The City Clerk shall retain and file one copy of the site development plan to constitute a permanent record of the site development plan. A minimum of three copies of the plan shall be reserved for the applicant, two of which shall accompany the application for building permit submitted to the Building Director, and one copy to be available for inspection at the job site.

7.05.07 Effect of Site Development Plan Approval

Approved site development plans shall remain valid if a building permit is obtained subject thereto within one year after final approval. Granting of extensions for approval may be made by the Development Director for a single period up to one year from the date when a site development plan would otherwise expire. An extension may be granted if the Official concludes that the recipient of the approved site development plan has proceeded with due diligence and in good faith, and that conditions have not changed substantially so as to warrant a new application. All such requests for extensions must be submitted in writing, not less than 30 days before the expiration of the approved site development plan stating the reason for the time extension request.

Upon approval of the site development plan, the applicant may proceed to submit construction drawings to the appropriate City staff for permitting. These shall include, but are not limited to, building plans, drainage and stormwater management facilities, road and driveway construction specifications, and tree removal plans.

Nothing contained herein shall preclude the City from accepting for review and processing building construction plans related to the structural, mechanical, electrical and plumbing systems prior to stamped approval of a site development plan, subject to such conditions as may be established by the City relative to such pre-plan certification processing.

In such instances, no building permit will be issued until the site development plan has been stamped approved and is on file in the Building Office. All building and construction permits issued for any project requiring site development plan review shall be consistent with the stamped approved site development plan. The approval of a site development plan shall not, under any circumstances, be construed to waive or otherwise diminish the applicable City requirements for construction or installation of structures or materials. Whenever a conflict between the site development plan and such construction details occurs, the more restrictive or that requiring the higher standard shall prevail.

7.05.08 Modification of Site Development Plans

Any modification, variation or adjustment of a stamped approved site development plan shall require approval of a site development plan amendment.

The Development Director shall determine whether a proposed site development plan modification is a major modification or a minor modification. The determination shall be based on, but not limited to the following: any substantial change, including increase in density, change in permitted uses, change in stormwater runoff characteristics, change in traffic patterns and trip generation, or other similar

changes shall be considered a major modification; any proposed minor changes in configuration or similar changes shall be considered a minor modification.

The Development Director may approve a minor modification. If the proposed change or amendment is determined to be other than a minor modification, the Development Director shall forward any revisions to appropriate members of City staff, outside consultants, and schedule a hearing by the Planning and Zoning Board to consider approval of the change.

7.05.09 Integration of Other Review Procedures

Any development involving the following provisions of this code shall be coordinated as set forth below:

- (A) *Development Built in Phases.* Development built in phases or stages must clearly show the various phases or stages of the proposed development on the site development plan and on all subsequent site development plans. Any amenity or stormwater management system proposed in any future phase shall be constructed in the first phase of development. A site development plan must be submitted for each successive phase of the development.
- (B) *Variance or Special Exception Uses.* For developments requiring approval of a Variance or a Special Exception, a request for such approval shall be submitted to the Planning and Zoning Board and City Council, and the Special Exception shall be approved prior to final approval of the site development plan. A site development plan and a Special Exception request may be processed concurrently.

7.05.10 Non-Compliance

Failure to comply with a stamped approved site development plan or any of the conditions upon which such approval was contingent, including time limits for performance, shall be cause to deny issuance of a building permit or, where a permit has been issued pursuant to a stamped approved site development plan, to render such building permit invalid. Any action, construction, development or use of property undertaken in violation of the provisions of this Section for a site plan shall constitute a violation of this Code and may be subject to a stop-work order.
